## Certifications

- [Full stack development Course](#)
- [Git-Github](#)

---

## Experience

### IT Support Executive | Aug 2023 – April 2025

Platform Coaching Pvt. Ltd. (Ed-Tech Company)

- Ensured the smooth operation of student-serving educational software by coordinating with third-party vendors to resolve technical issues promptly.
- Acted as a bridge between the internal team and the software provider to troubleshoot and escalate system errors.
- Built custom automation tools using scripting and data scraping to optimize internal workflows.
- Developed a solution to extract and convert test questions from a third-party website into editable formats (text/doc), improving test paper creation speed by 10x.
- Contributed to improving the team's productivity and accuracy in test preparation.

---

## Projects

### SachinBlogs - Blogging Web App ([Deployed Link](#))

**Tech Stack used:** React, Node.js, Express.js, MongoDB, CKEditor, Cloudinary, JWT, OAuth2.0

- Developed a full-stack blogging platform with user authentication via OAuth2.0.
- Integrated CKEditor for rich-text blog creation and Cloudinary for image uploads.
- Enabled categorized blog browsing with dynamic filtering.
- Implemented profile management for users and role-based admin controls.
- Added comment functionality with moderation features.

### Coaching Inquiry Website – Static Lead Capture Site ([Deployed Link](#))

**Tech Stack:** HTML, CSS, JavaScript, Google Sheets, Google Apps Script

- Designed and developed a responsive static website to boost the coaching institute's online credibility.
- Created a custom inquiry form to collect student queries.
- Integrated the form with Google Sheets using Apps Script for real-time data storage.

---
